

EVICR.net - European Vision Institute Clinical Research Network, EEIG is a **Network of Certified Clinical Research Centres** - which includes **101 Centres** from **15 European countries**.

The **Coordinating Centre** is located at AIBILI in Coimbra, Portugal.

This Network has an infrastructure for **management of multinational clinical studies in ophthalmology**. It has common and harmonized organizational and technical Standard Operating Procedures (SOPs), quality control and staff training according to ICH- GCP Guidelines, in order to strengthen the capacity of the European Union to explore the determinants of ophthalmic diseases and to develop and optimise the use of diagnostic, prevention and treatment strategies in ophthalmology.

EVICR.net is a **platform for multinational clinical research in Ophthalmology in Europe** and a structure to support **Investigator-Initiated Research (IIR)**. EVICR.net is an Industry resource in order to support the development of new drugs and medical devices in ophthalmology.

There are six **Expert Committees** that have a fundamental role in the scientific organization of EVICR.net and cover the main areas of ophthalmological research:

- ❖ **Age-Related Macular Degeneration**
- ❖ **Retinal Dystrophies**
- ❖ **Diabetic Retinopathy & Vascular Diseases**
- ❖ **Glaucoma**
- ❖ **Anterior Segment**
- ❖ **Ocular Surface, Inflammation, Dry-Eye & Allergies**

Also the following **Transversal Sections**:

- ❖ **Medical Devices**
- ❖ **Rare Diseases**
- ❖ **Reading Centres**

The EVICR.net has 14 Centres also with functions as **Reading Centres** for grading of fundus images, optical coherence tomography, ultrasound, microperimetry, perimetry and electrophysiology.
